

Cut & Stack Labels

The way to go.

Cut & Stack Labels grab attention with high-impact visuals. They give you the flexibility to address a wide range of packaging requirements. And they keep your costs in check.

Hammer Packaging has a long history of supporting some of the world's most well-known brands. Our success has come from staying innovative and ahead of our customers' evolving needs:

- **SEVERAL SUBSTRATE OPTIONS:** We have customized state-of-the-art presses that allow us to offer you a wide range of substrates. From wet-strength paper to white, clear and metalized film, and everything in between, we've got you covered.
- **CUTTING-EDGE INK OPTIONS:** Electron Beam (EB) inks and coatings are the newest innovations in packaging decoration. They offer exceptional scratch-resistance and high gloss graphics. We are one of very few printers in North America who offer these leading-edge options, in addition to the more traditional UV and water-based alternatives.
- **SAVINGS:** Keeping the price down doesn't mean compromising quality. At Hammer, it comes from decades of continuous improvement. We've collaborated with our vendors to innovate our technology to lower our costs ... which we pass on to you. In addition, our wide range of press configurations allows us to maximize your press layouts. This also keeps your costs down.

Cut & Stack Labels are an economical way to decorate and identify a product or brand.

Hammer people lead the way.

Prepress through finishing, we produce over 22 billion labels per year on 12 presses across three locations.

- Hammer's **customer service** department simplifies your work. We can create tailored programs to manage your ordering and inventory. As a result, you reduce inventory, increase speed to market and operate in a true just-in-time environment.
- Our highly trained digital **pre-press** professionals ensure that your graphics files are properly built and optimized for success. And we help to make transferring your files very simple.
- We have highly qualified **press** teams that bring your brand image to life on our 12 high-tech presses. With an exceptional range of substrates, inks and coatings, we can match perfectly to your needs.
- Our **finishing** department has state-of-the-art technology and highly customized innovations specifically designed to maximize efficiency and minimize your cost. From automated jogging, guillotine and chop cutters, die cutting, counter-pressure die cutting and sheeting, to slitting and bundling, Hammer has finishing down to a science.
- Our **R&D** experts make sure you have the right substrates, inks, coatings and printing techniques to present your brand in the best possible light. And we're always happy to collaborate with you to find a better way.

Our dedication to hiring the right people and continually investing in leading-edge technology has fueled our remarkable growth. Our ISO 9001:2000 registered Quality System ensures that we continually improve in all aspects of our business. We listen to our customers and, as a result, we have earned extraordinary loyalty. Hammer is a family-owned company, which means you partner not with systems but with people ... exceptional Hammer people.

Hammer Packaging has been supporting some of the world's most significant and well-known brands for decades.

Call us for your next Cut & Stack Label project. You'll be in good hands.
